ABOUT US

Medicare Hospital Equipment (Pty) Ltd

BACKGROUND

Medicare is a proudly South African company focusing on the sales and distribution of Medical Furniture and Hospital Equipment, formed in 1989. The business was built on medical expertise, excellent client service and the pursuit of medical- and clinical innovation. Today, this desire to constantly improve and grow is an integral part of the Medicare culture and the brand is now firmly established in the South African, African and soon Middle Eastern medical supply chain. A preferred supplier to all the major private hospital groups in South Africa, the business keeps on growing through its goals of:

• Service Excellence with Integrity
• Clinical and Technical Product Innovation
• Partnership with Superior Global Manufacturers
• Fast and Effective Logistics and Distribution
• Excellent After Sales Service and Ongoing Support

CORPORATE STRATEGIC GOAL

To be the best Medical Equipment and Hospital Furniture distributor in Africa and the Middle East.

METRO LIFELINE EMERGENCY RESUSCITATION TROLLEY FOR ADULTS
ITEM CODE: METC-101468

DESCRIPTION

- Metro Lifeline Medicare configured Emergency Resuscitation Cart with MI CPR Board (standard with Metro Clear Acrylic CPR Board). Designed for a Code specifically – world’s bestselling Emergency Resuscitation Trolley
- Manufactured from Metro’s rounded moulded polymer, which includes Microban® antimicrobial protection, improving infection control and keeping the cart “cleaner between cleanings”
- Corrosion proof, bacteria- and mildew resistant. Identifiable “Code Blue” coloring stands out in any hospital ward
- Full extension soft closing drawers provides full access even to the back of the cart, this configuration includes 3x3” (76mm) and 2x6” (152mm) drawers with code identifiable drawer pull colours
- The top of the cart includes an emergency drawer or “cavity” which provides immediate access via a clear top slide cover to either emergency medication or airway supplies
- The Adjustable defibrillator tray can go smaller or bigger with an adjustable knob, and can easily swing away allowing multiple users access to the cart during an emergency, fits AED’s or Professional Defibrillators
- This cart is designed with a 5th steering wheel, allowing even better movement and a shorter turning circle around corners on the way to the emergency event. Steering managed with a red pull handle
- Mobility on near silent castors: 5” (127mm) polymer castors, 2x directional and 2x total lock, providing control and stability
- Passive lock system provides safe tamper resistant closing system on all drawers, with security seals numbered and coded, enabling reduced stock-taking events
- This cart is designed to include the following accessories: Egg-crate dividers, Metro Acrylic CPR Board (a White Adult MI CPR Board optional), Top Cavity Storage tray and -cover, IV Pole and Sharps Container Bracket, Side Bin for resuscitator, Built-in O2 Tank Holder (cage-type optional extra)

CODES AND DIMENSIONS

- Name: Metro Lifeline Emergency Resuscitation Trolley for Adults
- Order Code: METC-101468
- Height: 991mm, Width: 819mm, Depth: 568mm

USAGE

- Every Ward
- ICU
- Theatre
- Day Clinics
- Procedure Rooms
METRO FLEXLINE BROSELOW EMERGENCY RESUSCITATION TROLLEY FOR PAEDIATRICS
ITEM CODE: METC-096720

DESCRIPTION

- Metro Flexline Paediatric Resuscitation Trolley (Emergency Trolley) with Broselow Colour Coded Drawer Pulls
- Manufactured from Metro’s rounded moulded polymer, which includes Microban® antimicrobial protection, improving infection control and keeping the cart “cleaner between cleanings”. Corrosion proof, bacteria- and mildew resistant
- Full extension soft closing drawers provides full access even to the back of the cart, this configuration includes 8x3” (76mm) and 1x6” (152mm) drawers with Broselow identifiable drawer pull colours
- Spacious work surface provides a smooth writing surface and ample space for emergency equipment
- Mobility on near silent castors: 5” (127mm) polymer castors, 2x directional and 2x total lock, providing control and stability, whilst immediately being able to respond to a code
- Passive lock system provides safe tamper resistant closing system on all drawers
- Accessories included in this configuration:
  - Metro CPR Board (Backboard) Acrylic mounted on the back of the trolley with polymer brackets
  - 2 Hook Adjustable IV Pole

LA PASTILLA STERILE SUPPLY TROLLEY TALL
ITEM CODE: LPC6040-1850

DESCRIPTION

- Used at Ward and Theatre level specifically for the storage of Sterile supplies or other ward stock
- ISO 600x400 mobile cupboards C-6040/1850
- 4 Wheels TENTE® Ø 125mm 2 with locking
- Shutter key lock (digital lock optional)
- ABS surface with Phenolic walls, scratch- and corrosion resistant
- PVC Roller Shutter Door, opening left to right
- Anodized aluminium profile, enabling a lightweight construction and enhancing manoeuvrability
- Epoxy-coated painted steel base with protective rubber surround

CODES AND DIMENSIONS

- Name: La Pastilla Sterile Supply Trolley Tall
- Order Code: LPC6040-1850
- Height: 1850mm, Width: 840mm, Depth: 527mm

USAGE

- Wards
- Theatre
LA PASTILLA LOCKING PATIENT FILE TROLLEY SMALL
ITEM CODE: C6040-1050FIL

DESCRIPTION

• Used at Ward level specifically to store patient files, up to 32 files can be stored and locked away safely when not in use
• Multi-purpose functionality enables the trolley to be used for daily rounds as well, with dual sections inside which can be allocated to supplies and/or files specifically
• ISO 600x400 compartmentalised inner panel allows the trolley to convert into a sterile storage cart, by swapping out the inner shelf with polymer or polycarbonate trays – thereby converting it into a mobile cupboard
• 4 Wheels TENTE® Ø 125mm 2 with locking castors are heavy duty and noiseless, offering excellent maneuverability even when fully loaded
• Shutter key lock (digital lock optional) enables safe and secure closure of the contents
• ABS surface top enables a clean, large, prep-/work space, with spill-proof raised sides
• The trolley itself is built with Phenolic walls, which are neat, colourful, scratch- and corrosion resistant
• PVC Roller Shutter Door, opens completely from left to right, allowing unobtrusive access to the entire contents of the cart
• Anodized aluminium profile, enabling a lightweight construction and enhanced maneuverability
• Epoxy-coated painted steel base with protective rubber surrounding the entire base of the cart

CODES AND DIMENSIONS

• Name: La Pastilla Patient File Trolley
• Order Code: C6040-1050FIL
• Height: 1050mm, Width: 840mm, Depth: 527mm

USAGE

• Wards
• Reception Areas
• Doctors Rounds
• Nursing Areas
• Day Clinics
**JD MEDICATION TROLLEY WHITE**

ISIK ELECTRICAL HOSPITAL BED FOR GENERAL WARDS 3 FUNCTION
ITEM CODE: HKE-UMY30

DESCRIPTION
• The Isik HKE-UMY30 electrical bed, bringing superior mechanical and medical innovation together. Economical and durable value for term of investment
• Height adjustment of the mattress platform with the help of an electronic motor, Height range: 470 - 760mm
• Electrical operated backrest and legrest adjustment
• Patient hand control
• Plastic (PP) with hygienic design, lockable and concealable side rails
• Removable head and foot boards
• Back angle indicator
• Cross lockable castors
• Electrostatic painted metal frame
• Height adjustable IV pole
• Plastic crash bumpers
• Trendelenburg position
• Accessory recess in the headrest and footsteps

CODES AND DIMENSIONS
• Name: Isik Electrical Hospital Bed for General Wards 3 Function
• Order Code: HKE-UMY30
• Height: 470-760mm, Width: 970mm, Length: 2130mm
• Backrest angle (Max): 70°
• Legrest angle (Max): 35°
• Trendelenburg: 0-12°
• Reverse Trendelenburg: 0-12°
• Safe Working Load: 200kg

USAGE
• General Wards
• Day Clinics

ISIK MECHANICAL HOSPITAL BED FOR GENERAL WARDS 3 FUNCTION
ITEM CODE: HKM-UA32

DESCRIPTION
• The Isik HKM-UA32 mechanically operated bed is used in areas where electrically operated beds are not required or not suitable but still offers all the functions of an electric bed
• Height adjustment of the mattress platform by crank mechanism, Height range: 500 - 740mm
• Backrest and legrest adjustable by crank mechanism
• Hygiene design (PP), lockable and tuck away side rails
• Profile frame with easy removable ABS plastic covers
• Removable head and foot boards
• Cross lockable castors
• Electrostatic painted metal frame
• Height adjustable IV pole
• Plastic crash bumpers

CODES AND DIMENSIONS
• Name: Isik Mechanical Hospital Bed for General Wards 3 Function
• Order Code: HKM-UA32
• Height: 500-740mm, Width: 1060mm, Length: 2210mm

USAGE
• Every Ward
• Day Clinics
• Sub-Acute Facilities
• Psychiatric Facilities
ISIK VISITOR DAYBED COMBINATION CHAIR
ITEM CODE: EYN-320

DESCRIPTION
- Comfortable visitors chair with armrests, folding out easily into a full extension daybed
- Manufactured from a high quality lightweight steel frame.

- Width: 685mm
- Length (Footplate open): 980mm, (Closed): 850mm
- Weight: 20kg
- Weight capacity: 200kg
- Wheels: Non-Marking Black 125x32mm (Front) and 200x50mm (Back)

USAGE

- Porter Wheelchair
- Reception Areas
- Transfer Chair from Wards and Doctors Rooms
- Airports
- Clinics
SPENCER SKID-E EVACUATION CHAIR
ITEM CODE: SK20001E

DESCRIPTION
The Spencer Skid-E Evacuation Chair is ideal evacuation equipment thanks to the unique pivoting wheels and the fork and tubular style frame. Offering both comfort and control to the user and operator, the Skid-E Evacuation Chair is quick and easy to deploy in the event of an emergency. Switch on the device and press a key for pre-configured modes for infants, children or adults. It’s that easy to start up ventilation in an emergency. You can instead initiate treatment by entering the patient’s height. The ventilator automatically determines the exact tidal volume for the ideal weight in volume-controlled modes

- Unique pivoting wheels for high maneuverability in tight situations
- Notable backwards inclination of the chair to provide user comfort
- Two lateral conveyors integrate with the footrest for safety
- Aluminum silver frame provides a robust design
- Gliding system ensures the user does not have to lift the load when descending the stairs
- Supplied with two polypropylene 50mm safety straps to secure the patient
- Suitable for a single person to operate
- Chair is divided into two surfaces to secure and protect the patient
- Maximum loading weight: 150kg

CODES AND DIMENSIONS
- Name: Spencer SKID-E Evacuation Chair
- Order Code: SK20001E
- Height (handles open)1600mm / (handles closed): 1070mm, Width(open) 900mm / (closed)330mm, Length: 530mm
- Weight: 12.7kg

USAGE
- Every Ward
- Multi-storey Buildings
- EMS Services

ANTANO PATIENT HOIST / PATIENT LIFT ELECTRIC INCLUDES SLING
ITEM CODE: ANT-HO-EL

DESCRIPTION
- Patient Lifting Device, Patient Hoist, to enable movement of patient from bed to recliner or wheelchair, in ICU
- Manufactured from tubular steel of high mechanical strength
- Includes Anti-trauma push handle, enabling ease of lifting for the care giver
- Base with adjustable arms on three positions by means of central control lever
- Complete with 4 twin castors, two of which with independent brake mechanism
- Lifting and descent movements by means of electric actuator 24V DC
- Battery Back-up provides ease of movement away from plug points, fed with current transformer
- The patient lifter is also equipped with emergency push-bottom and it is supplied with standard universal sling

CODES AND DIMENSIONS
- Name: Antano Electric Patient Hoist 180KG
- Order Code: ANT-HO-EL
- Minimum height: 1000mm
- Maximum height: 2000mm
- Maximum load capacity: 180kg
- Minimum width of adjustable legs 630mm
- Weight of full-loaded lift: 225kg
- Maximum width of adjustable legs: 1125mm
- Length: 1120mm
- Minimum height from the floor 60mm

USAGE
- ICU Wards
- Recovery Areas
- Orthopaedic Wards
- Frail Care Centres
- Physical Rehabilitation Clinics
FORMED JUMBO PAEDIATRIC STRETCHER
ITEM CODE: FMJUMBO

DESCRIPTION
- Safe and user friendly paediatric transfer stretcher, with height adjustment, backrest adjustment, and Trendelenburg and Reverse Trendelenburg positions. Ideal for safe transfer of children from Emergency Rooms to Wards or Theatre
- Excellent mobility: Large 200mm castors and directional wheel allows the stretcher to be easily operated even by one person
- Easy, smooth and safe adjustments: Very easy and user-friendly adjustment of height and Trendelenburg and Reverse Trendelenburg Position. Clearly indicated adjustment levers and foot pedals. Trendelenburg positions on the foot levers are accessible from both sides of the stretcher
- The backrest is easily adjustable by gas spring. Special construction of side rails ensures smooth and safe operation
- Safe for patient and caregivers: High tops and side rails provide a safe transportation of a child
- Very durable: The stretcher is made of high quality materials designed to provide its long-term usage. Additionally, the sides of the pallet are secured against damages with bumpers
- Practical: The trolley is equipped with special mounting sockets for infusion stand and other additional accessories and four bumpers for impact protection. The chassis is covered and includes a space for an oxygen bottle and patient’s personal belongings or medical files
- Easy to clean: Column construction and pallet filled with HPL boards ensure better cleaning and disinfection. Construction of the stretcher is made of steel sections covered with a powder varnish, resistant to UV radiation, mechanical damages, disinfecting and cleaning agents

CODES AND DIMENSIONS
- Name: Formed Jumbo Paediatric Stretcher
- Order Code: FMJUMBO
- Width of the pallet: 530mm
- Backrest segment adjustment: 0 degrees - 70 degrees
- Trendelenburg: 19 degrees
- Reverse Trendelenburg: 19 degrees
- Maximum permissible load: 50kg
- Castor diameter: 200mm

USAGE
- Emergency Rooms
- Theatre
- Paediatric Wards

- Recovery Areas
- Ophthalmic Wards
- Day Clinics

VERMEIREN ALTITUDE MOBILE RECLINER CHAIR FOR HOSPITAL USE
ITEM CODE: VER-ALTCHXXL

DESCRIPTION
Mobile Recliner Chair for Hospital Use, offers enhanced mobility to recovering patients. Proven to enhance recovery, patients are encouraged to get more mobile after procedure, and this chair offers this mobility whilst offering safety in use for the care giver.

- Protective “shell” frame allows the patient to sit comfortably, while being safe and protected
- Additional patient restraint straps provide a safety belt mechanism - very frail patients can be kept in position this way
- Spring system for the footrests allows comfortable foot rest for the patient while moving, but not allowing the patient to stand on it - assisting the buyer in making sure the chair lasts longer
- Patient positions can be adjusted to straight up seated, or adjustable backwards for more of a lying down position in transit
- The Altitude, in its basic form, is equipped with an 80 mm thick seating cushion (back height: 770 mm). The height of the back and armrests are depending on the thickness of the seating cushion (60-80-100 mm)
- Includes 5 Rubber Castors for ease of mobility

Optional accessories:
- IV (Saline Solution) Pole | Eating or working table tray

Standard accessories:
- Safety belt | Head positioning rest

CODES AND DIMENSIONS
- Name: Vermeiren Recliner Chair
- Order Code: VER-ALTCHXXL
- Height: 1240mm, Seat Width: 550mm, Seat Depth: 500mm
- Weight of Chair: 37kg
- Weight Capacity: 150kg

USAGE
- All Wards where Recliners where traditionally used
- ICU
- Hospital Wards
- Recovery Areas
- Frail Care Centres

- Theatre
- Day Clinics
- Procedure Rooms
- Recovery Room
- ICU
- High Care Wards
SECA ELECTRONIC COLUMN SCALE
WITH BMI FUNCTION
ITEM CODE: Seca 769

DESCRIPTION

Essential in hospitals and doctors’ practices: the determination of the nutritional condition of the patient. That is why the seca 769 has the BMI function where the height of the patient is compared with his weight, thus providing valuable information. The auto-HOLD function too reduces the everyday workload: it ensures that the result is still shown on the display after the patient has stepped down from the scale. The carer can therefore first attend to the patient before making a note of the weight. Additional items which are not to be included in the weight result are simply deducted by means of the TARE function. The scale is ideal for daily use in hospitals and doctors practices, with its transport castors, the column scale is easy to move around

- Functions: TARE, auto-HOLD, BMI, kg/lbs switch-over, automatic switch-off
- Optional: measuring rod seca 220 and seca 224, power adapter seca 447, switch-mode power adapter seca 400

CODES AND DIMENSIONS

- Name: Seca Electronic column scales with BMI function
- Order Code: Seca 769
- Height: 831mm, Depth: 294mm, Width: 417mm
- Weight Capacity: 200kg
- Graduation: 100g

USAGE

- Day Clinics
- Procedure Rooms
- Doctors Rooms
- Every ward

SECA BABY SCALE AND FLOOR SCALE
FOR CHILDREN IN ONE
ITEM CODE: Seca 354

DESCRIPTION

- Two scales in one! The Seca 354 baby scale has a comfortable weighing tray and a fine graduation of 5g
- In no time at all, it can be converted into a floor scale for children with a capacity of 20kg
- The weighing tray and the base which serves as the floor scale are securely locked together, thus ensuring that the baby can be weighed safely and securely
- A further advantage of the scale is its Breast-Milk-Intake-Function which determines how much milk the baby has consumed
- The robust but lightweight scale is easy to transport, and the user-friendly buttons make it easy to operate
- TARE, BMIF, auto-HOLD, kg/lbs switch-over, automatic switch-off
- Weighing tray easy to detach from base
- Breast-Milk-Intake-Function
- Mobile and robust for transport

CODES AND DIMENSIONS

- Name: Seca Baby scale and floor scale for children
- Order Code: Seca 354
- Height: 156mm; Width: 552mm, Depth: 332mm
- Weight Capacity: 20kg
- Graduation: 5g

USAGE

- Day Clinics
- Procedure Rooms
- Doctors Rooms
SECA CHAIR SCALE FOR WEIGHING WHILE SEATED
ITEM CODE: Seca 952

DESCRIPTION
• With a capacity of 200kg and a graduation of 100g, the seca 952 fulfils all basic medical standards
• Added to that are the typical seca advantages such as fold-up armrests and footrests, secure wheel brakes, an ergonomically shaped seat and smooth-running rollers, which, together with the ergonomically shaped handle, make it very easy to push the chair scale. Of course, the Seca 952 is also equipped with the important TARE function which allows every newly added weight to be ascertained separately and the auto-HOLD function which lets medical personnel take care of the patient first and read out the results later
• Features: TARE, Auto-HOLD, kg/lbs/sts switch-over, Automatic switch-off

CODES AND DIMENSIONS
• Name: Chair scales for weighing while seated
• Order Code: Seca 952
• Height: 897mm, Depth: 956mm, Width: 563mm
• Weight Capacity: 200kg
• Graduation: 100g

USAGE
• Day Clinics
• Procedure Rooms
• Doctors Rooms
• Dialysis Centre
• Frail Care Centre

SECA PLATFORM AND BARIATRIC SCALE
ITEM CODE: Seca 634

DESCRIPTION
• This battery-operated digital scale has been especially developed for weighing obese users, with a weighing range of up to 360kg and a non-slip 560 x 560mm platform, only 55mm high— a sturdy base for overweight or obese users. A chair may also be used on the scale and will not influence the weighing result due to the pre-TARE function. The cable remote display (cable length: 2500mm) with easy-to-read LCD can be held, wall-mounted or placed on a table. The 100g graduation means that the smallest changes in weight are registered, even after the user has left the scale – thanks to the auto-HOLD function. The integrated Body Mass Index (BMI) function and the seca 360° wireless technology, which can be used to transmit the measurements to a seca wireless printer or PC at the push of a button emphasises the many uses of this unique multi-functional scale
• Function and Properties: PRINT, Overload protection, Auto-PRINT, Transport custors, TARE, Auto-clear, Pre-TARE, HOLD, Auto-HOLD, BMI, kg/lbs/sts switch-over, Automatic switch-off, Wireless interface, SEND, RESET, Damping, Auto-SEND

CODES AND DIMENSIONS
• Name: Seca Platform and Bariatric Scale
• Order Code: Seca 634
• Height: 55mm, Width: 560mm, Length: 560mm
• Weight Capacity: 360kg
• Graduation: 50g

USAGE
• Day Clinics
• Procedure Rooms
• Doctors Rooms
• Bariatric Unit
• Dialysis Centre
• Rehabilitation Facilities
**WELCH ALLYN GREEN SERIES 777 WALL DIAGNOSTIC SYSTEM**  
**ITEM CODE:** WA-77747-L

**DESCRIPTION**
- The Green Series 777 Integrated Wall System puts all the essential diagnostic tools easily within reach.
- Include your choice of ophthalmoscopes, otoscopes, thermometry, blood pressure, and even vital signs devices.
- Standardize on this wall system and ensure your facility gets reliable diagnostic patient data in a consistent and energy efficient manner to improve workflows and your bottom line.
- Help reduce costs with a more energy-efficient product than other transformers
- No on/off switch reduces contact, to help reduce the risk of cross-contamination
- Help improve workflow and save energy with automatic on/off
- Easy to install as an upgrade from the Welch Allyn 767 Wall Transformer
- Configurable to include ophthalmoscopes, otoscopes, and vital signs instruments
- Increase productivity by avoiding time wasted searching for instruments/cuffs

**CODES AND DIMENSIONS**
- Name: Welch Allyn Green Series 777 Wall Diagnostic System with SureColor LED Technology including Coaxial Ophthalmoscope and 3.5V Otoscope
- Order Code: WA-77747-L
- Height: 326mm, Width: 241mm, Depth: 872mm
- Weight: 11kg

**USAGE**
- Emergency Rooms
- Examination Rooms
- Doctors Rooms
- Day Clinics
- Procedure Rooms

---

**WELCH ALLYN HANDHELD DIAGNOSTIC SET**  
**ITEM CODE:** WA-97250-BI

**DESCRIPTION**
- Welch Allyn Handheld Diagnostic System. Includes 2.8v Halogen Coaxial Ophthalmoscope, 2.8v Halogen Otoscope, C-Cell Battery handle, all in compact moulded zippered pouch, 2 x size ‘C’ dry cell batteries.
- For accurate and portable diagnostic capability.
- Welch Allyn diagnostic sets help physicians perform fast exams and accurately diagnose a range of patient conditions thanks to innovative optical technologies that help clinicians get wider views of the optic disc and tympanic membrane. With continued advances in instrument technology, long-lasting power sources, and new advances in lighting technology that include LED options, your diagnostic tools can not only help you perform a thorough and comprehensive exam, but also can help you operate quickly and efficiently.
- Choose PanOptic™ or Traditional Ophthalmoscope
- Choose from Lithium Ion, NiCad, or C-Cell handles
- MacroView™ Otoscope
- Soft and hard case options
- Nose and throat illumination systems available
- Now available with integrated LED light
- The 97250-BI Configuration:
  - Includes 2.8v Halogen Coaxial Ophthalmoscope, 2.8v Halogen Otoscope, C-Cell Battery handle
  - All in compact moulded zippered pouch, 2 x size ‘C’ dry cell batteries
  - Heads interchangeable with any (Welch Allyn) 3.5v power source
  - Handle upgradeable to rechargeable
  - Set of reusable ear speculum
  - Otoscope replacement lamp – 03100
  - Ophthalmoscope replacement lamp - 04900

**CODES AND DIMENSIONS**
- Name: Welch Allyn Professional Plus Diagnostic Set
- Order Code: WA-97250-BI
- Height: 197mm, Width: 118mm, Depth: 55mm
- Weight: 0.7kg

**USAGE**
- Emergency Rooms
- Examination Rooms
- Doctors Rooms
- Day Clinics
- Procedure Rooms
DESCRIPTION

- Advanced measurement technology, has the speed and simplicity you need to capture accurate and reliable temperature readings in a comfortable way for patients
- Innovative PerfecTemp™ technology adjusts for variability in probe placement
- ExacTemp™ technology detects stability of the probe during measurement
- Designed to take quick and accurate readings, to improve patient satisfaction
- 60 second pulse timer assists with manual measurement of pulse rate, respiration
- Electronic security features help prevent theft, loss
- Small or large cradles for probe cover storage that pop-up for easy attachment
- Optional charging station stores 200 probe covers, with rechargeable battery
- 6- or 9-foot security tether options keep device attached to cradle

CODES AND DIMENSIONS

- Order Name: Welch Allyn Thermoscan Braun Pro6000 Tympanic Thermometer with Small Cradle
- Order Code: WA-06000-200
- Height: 164mm, Width: 252mm, Depth: 58mm
- Weight: 0.477kg

USAGE

- Emergency Rooms
- Doctors Rooms
- Examination Rooms
- Procedure Rooms

DESCRIPTION

- A single white, bright LED that does not require replacement, the GS 300 Exam Light provides a whiter, brighter light than halogen and consumes less energy for improved facility efficiencies—now you can see true tissue colour rendition while reducing your current cost of ownership
- The Green Series Lights were designed to improve patient exams while reducing environmental impact
- Intense light output and cool operation designed to improve patient exams
- Improve staff productivity and satisfaction with easy assembly and cleaning
- Standardize with an affordable price that offers rugged performance
- Help reduce risk of cross-contamination with touchless On/Off
- Maximize floor space with multiple mounting options
- LED life of 50,000 hours to maximize investment

- Height: 566mm, Width: 572mm, Depth: 346mm
- Weight: 12.6kg

USAGE

- Procedure Rooms
- Emergency Rooms
- Doctors Rooms
CONTEC ECG MONITOR WITH 12 LEADS
ITEM CODE: MHE-ECG1200G

DESCRIPTION
- ECG1200G 12-channel ECG, gathers 12-lead ECG signals simultaneously and prints out the ECG waveforms with thermal printing system
- 800 x 600 dots high resolution colour LCD
- Convenient and quick button setup
- Automatic or manual mode to record and display ECG waveform
- Auto-measure of ECG waveform parameter
- Multiple switchable interface language

CODES AND DIMENSIONS
- Name: Contec ECG Monitor 12 Lead
- Order Code: MHE-ECG1200G
- Height: 334mm, Width: 320mm, Depth: 85mm

USAGE
- Every Ward
- Day Clinics
- Procedure Rooms
- Recovery Room

CREATIVE PATIENT MONITOR
ITEM CODE: PC-3000

DESCRIPTION
- Compact and lightweight with extremely simple intuitive User Interface
- High Resolution 7” (178mm) Full Colour TFT – 800 x 480 with super wide viewing angle
- Adult and Paediatric Modes with auto presets which are user adjustable for all parameters
- NIBP Hospital Grade Creative™ Technology - Single Hose with auto set and user adjustable inflation
- SpO2 Patented Creative™ LFC™ (Light Frequency Conversion) Technology - High accuracy including low perfusion. With options for Nellcor™ and Masimo® SpO2
- Temperature YSI 400 Compatible for Disposable Oral, Axillary, Rectal and Skin Sensors
- Fully User Adjustable and Programmable Audio/Visual Alarms for NIBP, SpO2 & Temp parameters
- Defibrillator Protection from Interference
- Short Trend and Waveform Display option with customisable colours for all parameters
- Patient ID entry with 1000 Hr Data Trending for all parameters – Graphical and Data List views
- Built-in Li-ion long life battery (replaceable) with UK and EU compatible power supply
- Bed Rail / Trolley Rail mounting hook – Detachable
- 3/5 Lead ECG/RR with Reusable Trunk Cable, 60 Hrs of ECG Waveform Storage

CODES AND DIMENSIONS
- Name: Creative Patient Monitor PC-3000
- Order Code: PC-3000
- Length: 200mm, Width: 150mm, Depth: 80mm

USAGE
- EMS Vehicles
- Day clinics

CORPULS AED
ITEM CODE: B06100.1010

DESCRIPTION

- The new Corpuls aed safely guides experts and non-experts through life-saving resuscitation. The defibrillator is available as a fully automated or semi-automated version and comes with an optional, built-in GSM module. The intuitive and easy operation of the handy corpuls1 allows immediate and comprehensive patient monitoring and therapy.
- The GSM module allows emergency calls to be triggered directly via the Corpuls aed and the control center dispatcher to guide the resuscitation over the telephone.
- The built-in corPatch CPR feedback sensor captures all data of the carried-out heart pressure massage. corPatch electrodes and the corPatch CPR feedback sensor are compatible with all other corpuls defibrillators and can be replugged in a matter of seconds.
- With its low weight and compact dimensions, the Corpuls aed is the ideal addition to any emergency equipment.
- A long battery life of 5 years (depending on setting) and automatic self-testing guarantee reliability.
- The wireless connection allows multiple Corpuls aed devices to be managed centrally and simply over WLAN. Key features of the device include calling up the device status, modifying the configurations and uploading updates.
- The Corpuls aed uses automated notifications to inform the user of upcoming maintenance requirements in advance. The recorded user data, including sound recordings, can be quickly exported and read with the corpuls.web REVIEW software.
- Corpuls aed has a 4.3” colour display, back-lit Display of up to 2 curves (DE channel and corPatch CPR* feedback curve).
- Dust and waterproof to IP66.

CODES AND DIMENSIONS

- Name: Corpuls aed
- Order Code: B06100.1010
- Length: 254mm, Width: 219mm, Depth: 59mm

USAGE

- EMS Vehicles
- Day clinics
- General Wards
- Doctors Rooms
- Public Access Areas

CORPULS’ MONITOR AND DEFIBRILLATOR
ITEM CODE: CORP05100

DESCRIPTION

- Corpuls1 is a life-saving defibrillator/patient monitoring system, developed specially for the needs of firefighters, first responders, patient transport and disaster control.
- The intuitive and easy operation of the handy Corpuls1 allows immediate and comprehensive patient monitoring and therapy.
- Corpuls1 has a 5.7” Transflective colour display that can display up to 4 Vital parameters and 3 Traces.
- Corpuls1 Defibrillator delivers biphasic rectangular waveform, impedance-compensated shock. It has a 2 to 200 joules, configurable energy protocol. AED and manual defibrillator. AED protocol according to the current ERC/AHA guidelines. 1-2-3 operation for easy and quick handling in defibrillation mode.
- Integrated Smart Metronome to support the user during chest compression.
- Limitation of released energy for defibrillation of children and pediatrics to 100 Joule (4J/kg body weight) with corPatch easy Pediatric.
- Battery run time of up to 8.5 hours.
- Dust and splash protection in accordance with IP55 guarantees reliable patient monitoring and treatment even in tough environments.
- Corpuls1 comes with the following basic functions:
  - AED mode
  - Manual defibrillator
- Corpuls1 Options:
  - 6-lead monitoring ECG
  - Pulse Oximetry by Masimo Rainbow SET (SpO2, SpCO, SpHb, SpMet)
  - Pacer Option

CODES AND DIMENSIONS

- Name: Corpuls1 Monitor and Defibrillator
- Order Code: CORP05100
- Length: 260mm, Width: 170mm, Depth: 90mm

USAGE

- EMS Vehicles
- Day clinics
- General Wards
LITTMANN CLASSIC II SE STETHOSCOPE
ITEM CODE: MMM2201

DESCRIPTION
• Versatile chest piece design provides high acoustic sensitivity with both a tunable diaphragm and open bell
• Tunable diaphragm: Hear high or low frequency sounds by slightly adjusting pressure on the chest piece
• Non-chill rim and diaphragm provide patient comfort
• Soft-sealing ear tips provide an excellent acoustic seal and comfortable fit
• Headset is easily adjusted for individual fit and comfort

The 3M™ Littmann® Classic II S.E. Stethoscope is a true clinical workhorse, providing high acoustic sensitivity through its dual-sided, stainless steel chest piece; with a tunable diaphragm on one side and traditional bell on the other. The Classic II S.E. stethoscope is used by students and medical professionals alike to identify, listen to, and study heart, lung, and other body sounds for physical assessment and diagnosis.
